NEW PARTS

Individuality by the push of a button.

The adaptive MANSORY DDC ECU coilovers allow adjustment within the TÜV-tested lowering range. The dirt-resistant trapezoid thread and the composite collar allow years of accessible adjustability and ease of use. Lowering can be done via the composite spring collar on the shock body or on the height adjustable rear perch in the rear of the vehicle. No matter where in the world, sporty drivers, car manufacturers and refiners rely on our MANSORY technology “Made in Germany”.

Each MANSORY coilover kit is produced at our headquarter located in Germany. During the production process each kit is subjected to extensive stress tests and must meet the high quality standards set by MANSORY management and surpass OEM quality. A 5 year warranty is provided when the kit is installed at one of MANSORY’s specialist dealers.

- retrofit electronic damper adjustment, combined with the advantages of a MANSORY coilover kit
- three damping setups: Comfort / Sport / Sport+
- operation by retrofit button
